To help cut costs this year, we have decided to not send out color brochures. If you are uncertain as to what one of our specimens might look like, please visit our website www.bakersacresgreenhouse.com. Please click on the WHOLESale links at the bottom of the home page to view each of the plants we currently have available.

Plants can be picked up at the greenhouse or shipped by DHL or airfreight. DHL is the most reliable shipper and delivers to your door. Costs to your door on DHL are about \$70 per box depending on distance from central Ohio. DHL Ground within the state of Ohio is approx. \$14 per box and usually arrives within one day. We can give you a quote. Outside of Ohio, DHL Ground is not recommended. The airlines are reasonably reliable but you must pick up at the nearest major airport. Cost is about \$45 per box. An airport delivery charge of \$4 per box (maximum \$20) will be assessed for airline shipments. UPS is not an option. Shipments are sent on Tuesdays and will be delayed if weather conditions are below 26°F at either end. Our boxes can hold either three or four flats. Boxing and winter pack charges will be assessed at our cost. As you would expect in today's economic climate, these costs are very subject to change and reflect prices as of 9/1/08. As always, you pay only our actual shipping costs.
